According to driver/passenger of Vehicle 1 was traveling Westbound on Old Shakopee Rd. Allegedly the driver of this vehicle slowed down by the railroad tracks. Then vehicle #2 rear ended him with great force. Causes the back passenger to strike his head on the pillar to his right. Drive of the vehicle said he struck his head as well. There was no damage to the rear end of his vehicle. Force from that large of a truck would have left an impact on the rear of the vehicle. There was no sign of impact at all.

According to driver in Vehicle #2. He was traveling Westbound as well. He was following Vehicle #1 at a safe distance. Vehicle #1 stopped on the railroad tracks and due to Vehicle #2 being a large box truck, it was not enough time to come to a complete stop. Driver in Vehicle #2 did say he tapped the back of Vehicle #1, but at 1-2mph. Not hard enough to send the driver and passenger of #1 to strike their heads.

Note: Zero impact marks on either vehicle.

Both drivers were given a case number to refer to. No citation were issues because there was no witnesses, dash camera footage, and mixing of stories.

Driver and passenger of Vehicle #1 were transported by Allina to the hospital to be checked for concussions.
