

A joint venture between AT&T and BlackRock
(Through a fund managed by its Diversified Infrastructure business.)

We provide commercial wholesale broadband transmission service, offering an open-access fiber network to a variety of internet service providers (ISPs). This expansive multi-gigabit infrastructure offers choice and competition for businesses and residents in the areas it serves, unlike ISPs that construct networks where they restrict access to external service providers.

COMMUNITY NOTICE

Our construction partner (ITG) will begin installing fiber internet in your neighborhood this week. Our goal is to minimize any disruptions to your property or your normal routine.

Please take a moment to read the back of this flyer to understand how ITG's work will impact you. We appreciate your cooperation during this time.

If you have any questions or should you encounter any issues during or after our work, please reach out to our partner team at the following number:

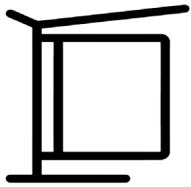

1-844-331-1217

CONSTRUCTION IS HAPPENING THIS WEEK IN YOUR NEIGHBORHOOD

How will this affect you?

BEFORE CONSTRUCTION

Approximately 4-5 days before construction begins, our crews will knock on residents' doors and place door hangers to alert the residents to the upcoming construction activity. Crews may also place signs in yards and on the streets as local ordinances allow.

DURING CONSTRUCTION

Crews will provide traffic control throughout impacted streets to ensure residents and business owners can safely access their property and primary roads during construction.

AFTER CONSTRUCTION

When construction is complete, crews will clean up residual debris and repair disrupted landscaping as necessary to an as good or better condition.

To learn more about ITG, what we are doing, and other project related information, please scan the QR code.

If you have questions or concerns about the work ITG is doing in your area, please call this number: 1-844-331-1217
