

Tested and Approved Deck Products

May 15, 2015

Note: The evaluation report numbers indicate structural approval of the products listed. Changes are continuously being made to the list. If the product you are interested in is not on the list, talk to the company selling the product and inquire about their ability to provide an evaluation report.

Trex Transend Decking	Trex Company	Winchester, VA	ESR-3168
VEKA Deck	VEKA Inc,	Fombell, PA	CCRR-0137

You may also find wood plastic composite materials with a UL designation. UL also conducts structural testing for these types of products.

Another listing you may see is ANSI. ANSI correlates with the CCRR designations.

NER and ESR numbers correlate to International Code Council Evaluation Services.

Note: Some of the products listed carry multiple names for their decking. The report should list all the names under which they are marketing the product.
