

Why are we here?

A. The State is replacing the 35W bridge over the Minnesota River, and will be replacing the W 106th Street bridge with that project

B. The city is conducting a study to determine the best type of interchange for W 106th Street

Goal of the Study

To develop recommendations to improve operations and safety around the interchange by:

- 1.** Providing designated trails or walkways for safer routes to school
- 2.** Improving sight lines
- 3.** Reducing conflict points
- 4.** Improving future traffic operations
