

Pond Maintenance Project City Project 2015-905

Open House Meetings
Monday, December 7, 2015

2:00 p.m. – 3:00 p.m. and 5:30 p.m. - 6:30 p.m.
Bloomington Public Works Training Room
1700 W. 98th Street

You are invited...

The Engineering Division invites you to an open house meeting about the 2015-905 Pond Maintenance Project. We encourage you to take advantage of this opportunity to get information on the project. Please park in the visitor parking lot on the west side of the building near the intersection of 98th & Logan. Use the south entrance for the 2 p.m. meeting, and the west entrance for the 5:30 p.m. meeting. SEE BACK FOR A MAP.

What's being proposed?

This project involves pond excavation work at four ponds within the City:

- Hyland Hills Pond North, 9900 Dakota Road
- Hyland Hills Pond South, 9900 Dakota Road
- St. Edward Pond, West 94th Street near Nesbitt Avenue South
- Kingsdale Pond, 9301 Collegeview Road

The Project is tentatively scheduled to start in late December 2015. Winter construction is preferred for pond excavation to reduce the risk of rain storms interrupting the progress and reduce the environmental impacts. The excavation will be limited to accumulated sediment near storm sewer inlets and outlets to restore flood protection and water quality functions of the ponds, and not whole pond dredging. Work is funded by the Storm Drainage Utility with no assessments.

What happens at the meeting(s)?

The meeting will be an open house format consisting of poster sheets showing various aspects of the proposed construction. You will have the opportunity to speak with Engineering Division staff and ask questions you may have about the project. There will be no formal presentation.

How can I stay informed?

If you have any questions regarding this project, please contact Steve Segar at 952-563-4533 or ssegar@BloomingtonMN.gov. Project information will also be available on the City's website BloomingtonMN.gov under "Major Construction Projects - Other Projects".
