### Step 2

The request should include:

- Your name
- Your date of birth
- MA policy number
- Name of health plan
- Type of breast pump
- Age of baby
- Reason for breast pump (ex. separation of mom and baby)

### Step 3

Allow your medical clinic enough time to fax the request, then call the medical equipment provider. They will ask you some questions to complete the paper work, verify coverage, and discuss whether the pump will be delivered or picked up. Written information on how to use the pump, cleaning, etc. should be included with the pump.
