## NOTE TO GROWN-UPS

Children love to prepare their own snacks – it gives them a sense of competence. Adults need only to chop the broccoli for this recipe – do not let preschoolers handle sharp knives. Offer them a table knife or serrated plastic knife for spreading or cutting. To show your child how to make a wrap, make your own broccoli wrap along with your child.

#### DIRECTIONS

- 1. Invite your child to wash their hands and join you for a cooking activity.
- 2. Invite your child to spread some cream cheese in a thin layer over the tortilla.
- 3. Sprinkle 2 tbsp of broccoli over the cream cheese, leaving about 1/3 of the tortilla bare.
- 4. Lay the lunchmeat on top of the broccoli.
- 5. Beginning from the side sprinkled with broccoli, roll the tortilla up to the opposite end.
- 6. Pick up the wrap and eat! If desired, the wrap may be cut crosswise into spirals for bite-sized pieces.
